CORSE LAWN | CHALK WHITE

My RESIDENCE Case Study

This beautiful 1970's home was given a fresh update with Residence 7. The homeowner opted for Corse Lawn, with grey and green undertones really complementing the brick work by giving the home a modern character. The chalk white internal colour, was the ideal choice its purity and cleanliness helps flood each room with plenty of light.

The flush windows also provides fantastic energy efficiency which is what the homeowners found the most appealing. This double glazed installation reaches a u-value of 1.2W/m²K as standard.
